DETAILED ACTION

Allowable Subject Matter

Claims 1-22 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record does not show or reasonably suggest, in combination with the other claimed subject matter, the limitations recited in independent claims 1, 11, and 19 wherein a vision includes at least: a thermal sensor thermally coupled to the light source and generating a temperature signal, a thermal control system thermally coupled to said illuminator assembly, and a method of heating the light source when the temperature signal is below a maximum temperature signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Amendment

The Affidavit filed on 4/18/05 under 37 CFR 1.131 is sufficient to overcome the Marinelli et al. reference.

Art Unit: 2878

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Starkey et al. (US 3,751,166) discloses a command guidance transmitter system.
